Virtual Terminal

Accept credit/debit cards and eChecks with the most convenient terminal - your computer. Securely take orders over the phone or select from a variety of device options. For recurring transactions, quickly set up a bill plan for any customer.

Interchange Optimization

We automatically process Level II and Level III data so every transaction qualifies for a lower interchange rate, reducing the cost of each payment processed

Custom Profiles

Create profiles for each of your customers - complete with transaction history and custom fields. You can even safely store multiple credit cards for future use.

Billing Plans

Set up recurring bill plans with a few clicks of the mouse. All plans are customizable and come complete with detailed reporting and email notifications for customers

Mobile

Extend the benefits of the CardPointe platform to your mobile device with our native iOS and Android app. You can choose from a number of hardware options to swipe or dip credit cards for the ultimate on-the-go payments experience.

Inventory Management

Instantly add, modify and delete items in your digital inventory right from your mobile phone

Offline Transactions

No network connectivity? No Problem. Run transactions as usual and upload them later when you're back online

Barcode Scanner

Utilize your device's camera to capture barcodes to make ringing up items a breeze
